11. How the damage is regulated

Once you have reported the damage, we (Omocom) will decide how to compensate you. Compensation can be made through repair to restore functionality, replacement, or cash refund. In the case of replacement or repair, we have the right to decide where the purchase or repair should be made. We also have the right to determine the method of repair.

For repairs, contact a repairer you trust and get a quote for our approval. In order to protect your rights under the Consumer Services Act, you as the owner must order and approve or complain about performed work.

For minor repairs, such as self-repair, laundering of textiles and minor painting work, compensation for own work may be applicable. Compensation for own work is given at 150 SEK per hour in addition to the cost of materials.

Second-hand and alternative parts should be used as far as possible by the repairer or by yourself when repairing.

If you do not follow our instructions as described above, the insurer's liability is limited to the cost that would have incurred if the instructions had been followed.

11.1. How the vehicle and equipment are valued

Compensation for damage is based on the market value of the vehicle or equipment immediately before the damage. With market value we mean the value in general trade.

Certain equipment, as listed in the table below, is valued at the cost of buying new equivalent equipment. Compensation is then paid at the percentage of the new price indicated in the table below. Other equipment is reimbursed at market value.
